

Why pick Bamboo Flooring

- Solid Strandwoven construction for additional stability
 - 25 Year Residential Wear and Lifetime Structural Warranty
 - GECA Certified – Good Environmental Choice Australia
 - FSC Certified for strong environmental credentials
- Quick-Step ARC's 14mm solid boards are a generous 1850mm long and 137mm wide. With its solid construction, ARC Bamboo is stable, incredibly indentation resistant, almost completely insect resistant, easy to clean and maintain and can be sanded and re-finished in years to come... just like a timber floor. ARC Bamboo has the world's best joining system Uniclic, ensuring a quick, easy and versatile installation of your floor.

Forget Timber, Bamboo is the future of flooring

If you love timber flooring, you'll fall head over heels for Quick-Step ARC Bamboo... not just for its good looks, with its long and wide boards, but also for its strength and durability. And perhaps the most impressive feature of all is that it is sourced from dedicated plantations which are regrown in 5 to 6 year cycles... awarding ARC its independent environmental certification from both GECA (Green Environmental Choice Australia) and FSC (Forest Stewardship Council).

Regular Maintenance

- Vacuum (bristles down) or sweep your floor regularly to remove grit or objects that may scratch the surface of your floor.
- Any spills should be wiped off the surface of the floor as soon as they occur.
- When cleaning your floor, use Premium Timber & Cork Maintenance Kit (available from your ARC Bamboo retailer) as directed on the back of the pack. This kit has been designed specifically for your flooring.

It is important that you do not use soap-based detergents or “supermarket type cleaners”, as these may leave a dull film on your floor that can be extremely difficult to remove (sometimes impossible).

- Do not use abrasive cleaners, steel wool, or scouring powder on your floor and never wax or polish your floor. Never use a steam mop on your floor.
- Bamboo flooring, like other types of smooth floors, can become slippery when wet. Wipe any cleaning moisture off the floor immediately after cleaning using a clean towel or rag. Immediately wipe up wet areas from spills, foreign substances, or moisture from wet feet.
